**Adult Community
Learning**

Courses

2022 - 2023

Welcome to Adult Community Learning At Bath College

Bath College Adult Community Learning provides a wide range of courses intended for adults who want to increase their chances of finding work, better support their families or to live independently.

We work with a number of partners across the region and many of our sessions take place in community venues across B&NES.

Our courses are for people who are 19 years of age or older and who would like to improve their skills, gain qualifications or boost their confidence levels. Courses are provided free of charge and designed for those who are:

- Actively looking for work or considering work options for the future
- in receipt of benefits and would like to improve their skills to support their families
- Wanting to gain skills to live more independently
- Interested in becoming more involved in their community
- Working but on a low wage so looking to improve skills and prospects

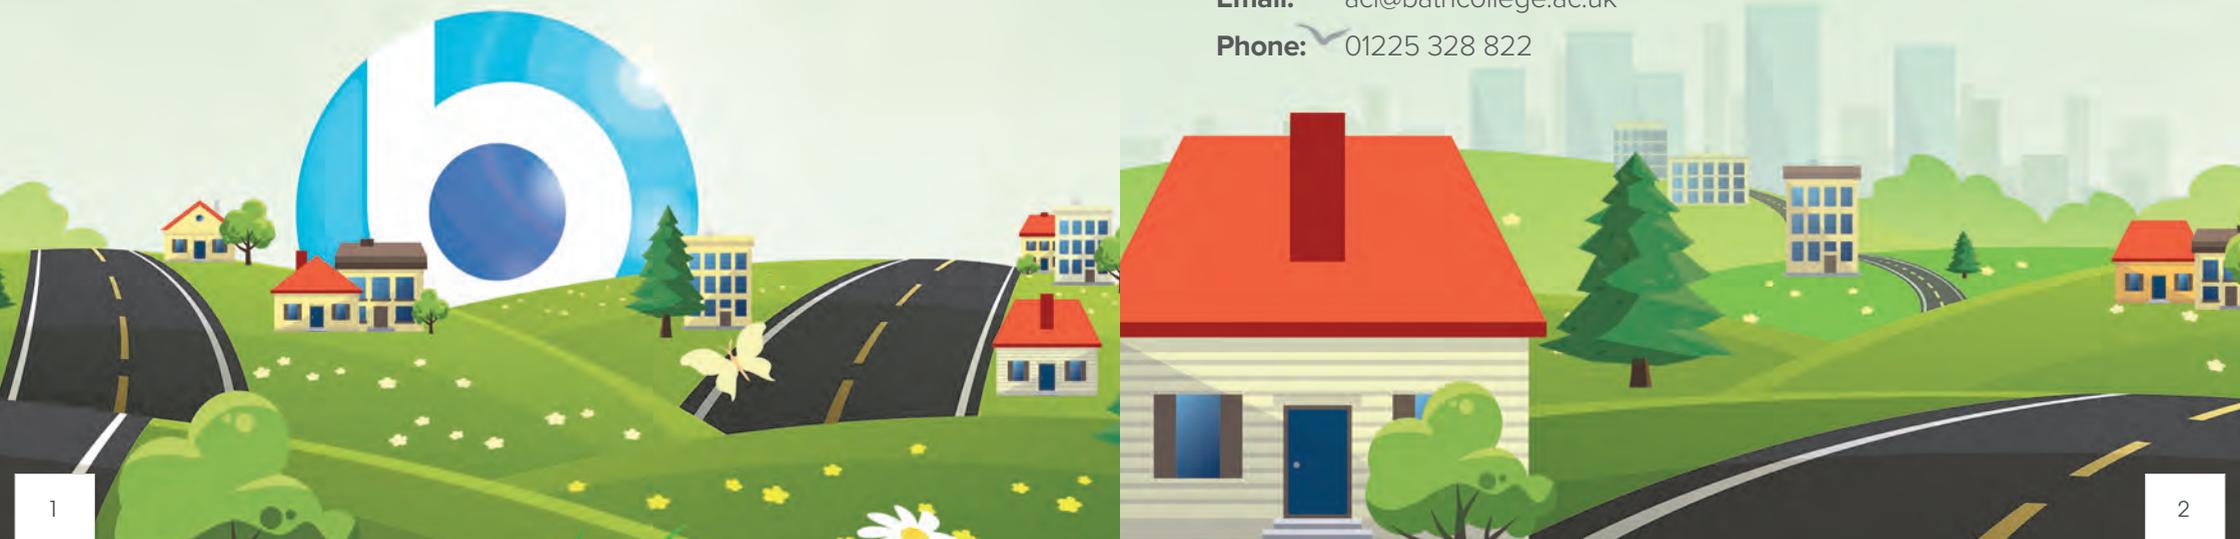

English, Maths and Essential Digital Skills Qualification (EDSQ) assessments and classes are offered free of charge to anyone who has not already obtained a level 4 (grade C) in these subjects at GCSE level. Please contact us if you have any questions about whether you are eligible for free provision.

Please note that if relevant, proof of settlement status will be required.

Address: Adult Community Learning, Somer Valley Campus,
Bath College, Wells Road, Radstock, BA3 3RW

How to Apply and Enrol

We recommend you apply as early as possible due to the popularity of some courses. If you have any questions, or to book a place, please call our team.

Phone: 01225 328 822 **Email:** acl@bathcollege.ac.uk

Community Learning courses will usually be FREE, if you book onto a course but are unable to attend, please let us know via phone or email.

Travel Expenses / Childcare

Speak to your work coach before the course starts and they will be able to explain how you can be reimbursed for travel to one of our courses. We may be able to provide travel expense and/or childcare costs for those who are not working or are in a low-income household. Please contact us for more information.

Signing On

If a course clashes with a Job Centre appointment, arrange with the Job Centre to sign on at the start or the end of the day instead. It is important that you do not miss sessions.

Refreshments

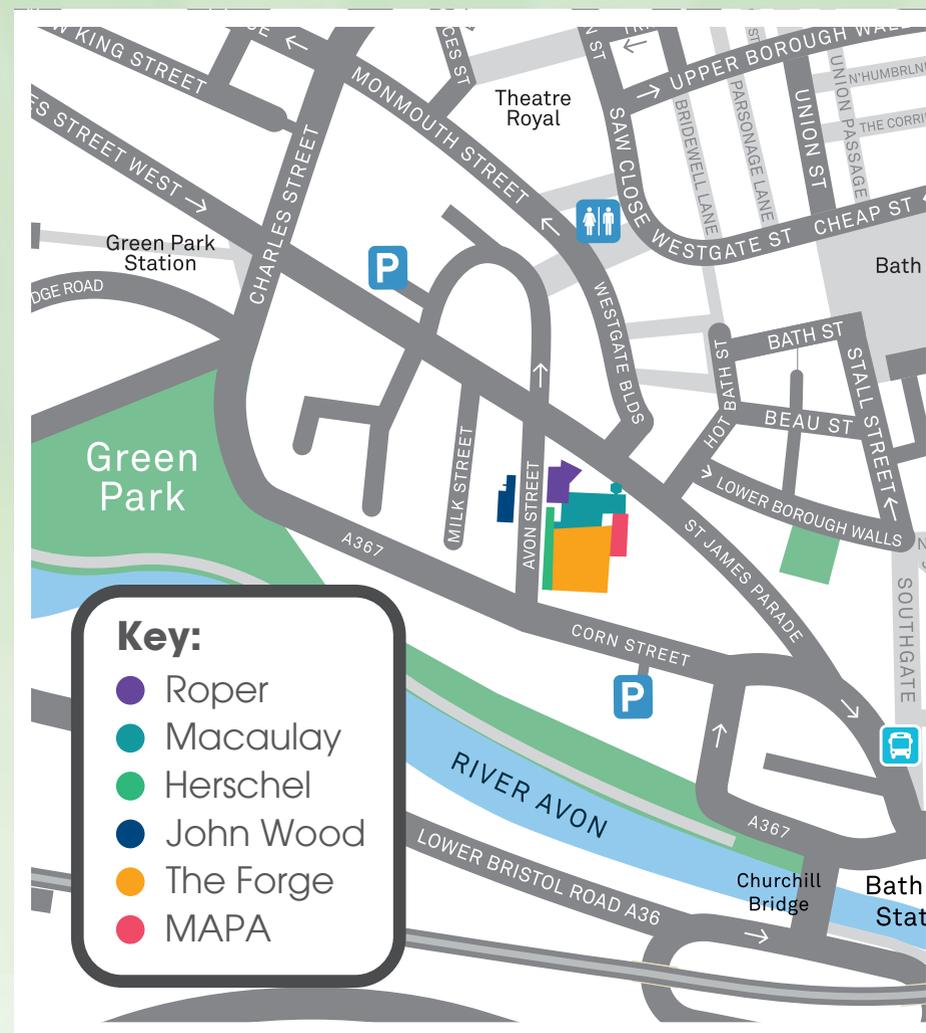

We are unable to provide refreshments. Please feel free to bring your own, or you are welcome to use our onsite canteen if relevant and available.

Additional Equipment

You are not required to supply anything yourself for the courses involving additional equipment such as cookery or art. We do however recommend that you wear appropriate clothing and footwear. For our vocational courses, safety boots will be required. Please speak to your work coach if you need help with funding for these.

Employability Courses

Health and Social Care

Workskills

This introduction to Health and Social Care covers all of the nationally recognised Care Certificate Standards that you will need to be aware of if you want to work in this industry.

Whether you want a complete overview of Health and Social Care to enable you to look at getting a job in a certain sector or would like a taster of different aspects to help you make a decision or progress with training, this course is a great lead-in without making a commitment to a full-time course.

Hands-on training is provided in First Aid as well as other practical skills, while guest speakers will attend to introduce various areas of Health and Social care work that you may not have considered as being of interest to you.

At the end of the course, we are able to provide a certificate of attendance as well as guidance on further options either in training or employment. This course is not accredited and is not attached to a formal qualification.

Please note that the date and day of delivery may change slightly.

Course Code	Day(s)	Time	Date(s)	Venue
S83EHSX/BDF1A	Tuesday	09:30 – 14:30	13/09/2022 – 13/12/2022	City Centre Campus

Cost: FREE

Introduction to Administration

This friendly, tutor-led course covers all of the basic administration skills needed to work in a modern office as you take part in individual and team projects with your like-minded fellow learners.

Previous students have gone on to Level 2 qualifications in Business Admin as well as some even starting their own successful businesses.

You will learn:

- The role of the office administrator
- Effective communication with customers
- How to arrange meetings and take minutes
- How to use office equipment and learn filing methods
- How to work within GDPR legislation
- Office etiquette

Please note that this course does not include IT skills, therefore we do recommend that you look at our computer courses if you would like to learn these also.

Please note that the date and day of delivery may change slightly.

Be Your Own Boss

Would you like the flexibility of being your own boss? Do you have a business idea but are not quite sure how to get it off of the ground? This exciting course covers how to forecast revenue, considers if there is a need for your product or service in the marketplace, how to find out what and who your potential customers are and what they want, and how to promote yourself and your business. It will also feature guest speakers who have not only “been there and done it” but who have specialist knowledge of essential business skills such as online marketing.

Beauty Courses (NEW)

A new addition to our curriculum, our Beauty courses are being delivered in small groups by our tutor who has many years of both working and teaching in the field. Come along and have a go in one of our stand-alone workshops, take part in all four, and then enrol onto our longer running course in September to look at how you can build a great beauty focussed business that fits around your other life commitments.

All equipment is provided apart from in the Make-Up workshop for which we would ask you to bring your own (just your daily kit is fine, it doesn't need to be fancy!).

Manicure Basics – 27th April 2022

Pedicure Basics – 4th May 2022

Facial Basics – 11th May 2022

Make Up Basics – 18th May 2022

Age Positive

This course runs as a series of supportive workshops and one-to-one coaching sessions to explore fresh ideas about job seeking in the modern labour market. You will look at the benefits that being over 40 can bring to jobs or volunteering and recognise the skills that you already have to help overcome any workplace negativity.

The course will include:

- **Job Coaching Sessions** – a one-to-one at the start of the course will help the tutor to tailor the course to your requirements and give you a chance to talk about what you want to achieve from the course before it starts.
- **Realising Your Potential** – Have a realistic look at what you can offer a workplace and what you need to achieve to get there. Share your positive and negative experiences within a supportive group who appreciates the challenges and opportunities involved.
- **Career Booster** – Understand how to learn and plan for this stage of your career, create and handle CVs, applications and online material that will really help to promote what you have to offer. Explore ways to identify new learning, job and business opportunities, overcome disadvantages such as employment gaps and consider ways to move forward when you feel like you are stuck in a rut!
- **Interview Preparation and Success** – Explore current interview trends and practice techniques that really impress interviewers. Learn how to showcase your skills and strengths and illustrate them with relevant examples.

Confidence and Motivation Courses/Workshops

Catching Confidence

Are you stuck in a bit of a rut and unsure of which way to go? Is your lack of self-confidence and motivation holding you back? Catching Confidence is a course designed to help you focus on your next step, identify what is holding you back, give you a toolkit to fall back on in times of need, and to give you the confidence in helping you to set and achieve your own personal goals.

What will I be doing?

- Planning ways to make positive changes and to recognise your skills
- Making a plan to address areas that you need to work on in order to feel more confident and self-assured
- Learning techniques to help you confidently promote your skills to others
- Learning to feel good about yourself and identify who you are.

Course Code	Day(s)	Time	Date(s)	Venue
S83CCX/EDC1C	Thursday	09:45 – 13:00	05/05/2022 – 26/05/2022	Twerton Learning Centre

Employability Workshops

All dates for our employability workshops are to be confirmed, however if you would like to take part in any of them, please contact: clive.bennett@bathcollege.ac.uk or call **01225 328822** and he will be able to talk you through your options or put you onto our waiting list.

Effective Job Hunting in the Digital Age

Take a fresh look at your job hunting strategies and discuss realistic ways to find new opportunities.

What will I be doing?

- Establishing a way to move forward with your job and career goals
- Getting ready to communicate with employers and making sure you have everything you need to overcome barriers
- Understanding the benefits of agencies, flexible contracts, self-employment, on-line job seeking and volunteering
- Learn different ways to gain insights into companies to use in covering letters and interviews
- Learning how to effectively communicate with potential employers

Dates to be confirmed, please email clive.bennett@bathcollege.ac.uk for more information on our employability courses.

CV Masterclass

When applying for a job, your CV will most likely be the first thing that an employer will see about you, therefore it's important to ensure that it makes a good impression! You will be:

- Learning the purpose of a CV
- Learning how to layout a CV effectively
- Learning how to make your personal statement stand out
- Understanding how to explain awkward employment gaps
- Looking at what employers look for in a CV

Dates to be confirmed, please email clive.bennett@bathcollege.ac.uk for more information on our employability courses.

The Art of Job Applications

This workshop will help you to identify ways to ensure that your application provides you with the best possible chance of taking you to the next step in the employment process.

You will learn:

- What the employer is looking for
- How to make it clear that you meet the criteria
- How to use examples of achievements to showcase your strengths and skills
- How to answer common and tricky questions in paper and online applications
- How to gain and use feedback effectively for future development

Interview Preparation and Practice

This pair of tutor-led workshops will help you to focus on preparing and practicing for interviews to enable you to go into the real thing feeling positive and confident.

You will be:

- Learning how to handle interview nerves and present yourself confidently
- How to communicate clearly why you want the job and why you are right for it
- How to handle difficult questions
- Identifying the key skills that your job description is asking for
- Tailoring your CV to meet job descriptions

Dates to be confirmed, please email clive.bennett@bathcollege.ac.uk for more information on our employability courses.

SWAPS

SWAPS (Sector Based Work Academy Programs) have been designed to get people into areas of employment in which they may not have the experience of working in before, or the knowledge of how to start a career there.

They are two week intensive courses (but also run within school hours to allow for life commitments) which bring together CV workshops, mock interviews, Maths, English and IT skills to get you ready for the world of work. The SWAPs also have the advantage of being linked to an employer with live job vacancies so you will get a guaranteed job interview at the end of the course, with a good chance of employment!

We run a variety of SWAPs in different areas such as construction, hospitality, administration and customer service. For more information, you can either ask your job coach, or email acl@bathcollege.ac.uk

Life Academy

What is Life Academy?

“Life Academy” is the name that we have given to our new scheme to support the people of BANES into achieving their goals and targets. Whether you know what you want to do and need support in getting there, or even if you don’t know where you are going, Life Academy has been designed to help.

The initial step in taking part in Life Academy is a short 1-2-1 session with Clive, the leader of the course. This will give him an idea of where you are and how we are going to help you. Further to this, you can join our next Life Academy course which will deliver bite-sized teaching on areas such as budgeting, problem-solving, volunteering, goal-setting, resilience, assertiveness, confidence, time management, routine, barriers etc as well as some pre-employability skills and help in identifying and pursuing aspirations.

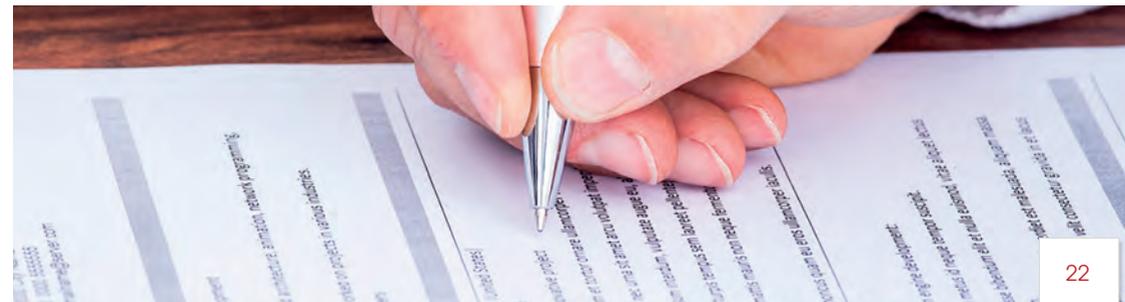

The course will give a taster of what else is out there in terms of courses and training so that guidance can be given towards the best route forward in achieving your goals.

There may also be the possibility of work experience, placements and volunteering as well. The aim is to get them closer to employment and while for some people that is getting a job ASAP, for some it might be doing a further course while for others, it could just be getting a bit of confidence.

And Life Academy doesn’t just mean employment based courses – we have a wide range of engagement type activities and sessions which will boost your confidence and skills.

For more information or to arrange a 1-2-1, email:

clive.bennett@bathcollege.ac.uk or call 01225 328822.

Food Hygiene

RSPH Level 2 Award in Food Safety and Hygiene

The objective of the RSPH Level 2 Award in Food Safety and Hygiene is to serve as a basis for all of the principles values of hygiene for anyone who is handling food in a catering or retail environment. It is perfect for those looking to go into a catering role, or those who are already working in one but would like to gain a hygiene qualification.

What will I be Learning?

- How to identify contamination and cross-contamination hazards
- Dealing with stock and deliveries to customers
- Work flow, work surfaces and equipment
- Food spoilage and waste plus temperature control

There will be a short exam at the end of the course for which you will be awarded a certificate if the required pass rate is achieved. Please bring relevant photo identification to allow us to enter you for this.

Computing Courses

Computer Confidence

This course will be run in a friendly and supportive way by our sympathetic tutor and is suitable for complete beginners who feel nervous at the prospect of using a computer. Your fellow classmates will be at the same level of learning as you, and the pace is dictated by the students.

What will I be doing?

- Developing mouse skills, finding your way around the keyboard
- Learning the lingo
- Creating and saving a document plus finding a document you have saved
- Searching the Internet effectively for information

Advanced Microsoft Excel

This course is suitable for anyone who has completed our Beginners Excel course. We run this at various times and dates throughout the year at both our Somer Valley and City Centre campus. To find out more, please email: acl@bathcollege.ac.uk.

Learners on this course will already know how to use the plus/minus/multiplication formulas and the SUM and AVERAGE functions.

Microsoft Excel is widely used in all types of businesses and is excellent for organising and sorting data as well as business planning and performing calculations. It is also a very useful tool for the home user.

During the workshop you will cover:

- Refresh building block functions
- Refresh replicating formulas along rows and columns
- Customise the cell format (e.g. how a date is displayed)
- Utilise 'Absolute referencing'
- Explore the 'IF' and 'Or' and 'SUMIF' functions
- Applying functions to real life projects

Essential Digital Skills Qualification (EDSQ)

The Essential Digital Skills Qualification (EDSQ) is a nationally recognised qualification that has been created for adults who need to develop their digital skills to allow them to gain confidence and skills to participate fully in life and work in our evolving digital landscape.

Based on the National Digital Standards, these qualifications are designed to support adults in five Essential Digital Skills:

- Communicating
- Handling information and content
- Transacting (shopping online)
- Problem Solving
- Being safe and legal online

The EDSQ is a 9 week course running on various days in either our Twerton, Bath or Radstock campus. Before you enrol onto the EDSQ, you will need to take part in one of our short taster sessions. This will allow us to assess your existing IT skills and therefore be able to place you into a class with learners who are of an equal ability to you and therefore will learn at the same pace. The EDSQ Taster Sessions are run frequently throughout the year. Please contact us on acl@bathcollege.ac.uk or **01225 328822** to find out when these sessions are taking place.

Personal Development

Food for a Good Mood

Join us to learn how what you eat can affect your mental health and your outlook. There are many tools available to support your positivity and the way you tackle life, and what you eat has progressively become a strong contender towards being included. Our tutor will show you tasty recipes and ideas to make your brain strong and feel supported by your tummy!

Eat Your Way to Less Waste

This course will show you how you can utilise the leftovers that have been sitting in your fridge and the parts of your ingredients that you usually throw away in order to make great meals – saving both your money and the planet. We can't promise you a banana skin curry like Nigella makes, but there will be some great ideas that you will want to replicate at home.

Food Around the World

Work your way around the continents of the world with this course which will show you how to make recipes which you will want to make over and over again. From Greece to Mexico, these dishes can sometimes be simpler to recreate than you might think, without ever losing any taste factor.

Course Code	Day(s)	Time	Date(s)	Venue
S83KCEX/EDC1C	Wednesday	09:30 – 13:00	07/06/2023 – 12/07/2023	Twerton Lighthouse

Cost: FREE

All ingredients and equipment will be provided for these courses. Please inform us of any dietary requirements when enrolling so that we can ensure that you are catered for sufficiently.

Art Techniques

Bath College Adult Community Learning Art Engagement courses are great for anyone who wants a gentle introduction to our tutors, courses and campuses. Art is an amazing outlet for creativity as well as helping with our memory and reasoning functions, while improving self-esteem and mental well-being. No equipment is required for any of our courses unless otherwise stated, but please ensure that you dress accordingly.

Please note that many of our art courses do not run over half terms. The title and content of some of our courses will be confirmed on booking (eg, Drawing and Painting Animals or The Coast).

Digital Photography

We have lots of projects running throughout the year with our digital photography tutor – from looking at self-portraits to the amazing images that can be captured at Bath City Farm, to the stunning Bath skyline. No camera is needed as we will show you how to use your mobile phone to both capture and edit photographs that belong on walls and in magazines!

Keep an eye on our Facebook and Instagram pages for our other photography courses, or email us on acl@bathcollege.ac.uk to go onto our waiting list so that we know you are interested!

Sustainability and Eco Courses

We are all becoming more aware of the energy that we are using in our homes and cars – not just to save our bills becoming sky high but also to help save the planet. Our courses are delivered by an experienced and knowledgeable tutor who can guide you towards making changes that might not seem massive but can really make a difference. She will show you that you don't need to spend a lot to save a lot!

For more information about these courses, or to look at how we can support you with sustainability within your community, please email acl@bathcollege.ac.uk or call 01225 328822.

Introduction to Animal Care

On this hands-on course, you will work with a variety of small farm animals including goats and chickens. Taking place at vibrant Bath City Farm, you will learn about and experience some of the following topics:

- Animal care and handling
- Animal behaviour
- Housing and nutrition
- How to recognise and treat common problems and ailments

Please note that you will be handling animals and will be outside so please wear appropriate clothing and footwear.

Course Code	Day(s)	Time	Date(s)	Venue
S83NMLX/EDC1A	Monday	10:30 – 13:00	03/10/2022 – 21/11/2022	Bath City Farm

Cost: FREE

Advanced Animal Care

Moving on from our Introduction to Animal Care course, this advanced course builds on the skills you have already gained. Taking place again at Bath City Farm, you'll be handling animals in an outside environment, so make sure that your clothes and shoes are practical!

On this course you will be:

- Understanding animal behaviour
- Monitoring and reporting on animal health
- Movement and handling of a variety of animals
- Giving basic health treatment to a variety of animal
- Assisting with care of their accommodation and enclosures

Course Code	Day(s)	Time	Date(s)	Venue
S83NMLX/EDC1B	Monday	10:00 – 13:00	16/05/2022 – 11/07/2022	Bath City Farm
S83NMLX/EDC1B	Monday	10:00 – 13:00	08/05/2023 – 03/07/2023	Bath City Farm

- Learn about preparing different surfaces for paint
- Learn about and use different types of paint
- Hang wallpaper
- Try some decorative finishes

Cost: FREE

English and maths

With Adult Community Learning

Our English and maths courses are available to anyone who does not already have a qualification equivalent to a GCSE Grade C or higher. They are free of charge.

English and Maths are core skills which we all use in our everyday lives. You may wish to increase your confidence in these subjects or perhaps would like to help your children with their school work, improve your job prospects or move on to further training or education.

We offer a range of courses and qualifications at different levels. They are run at either our Learning Hub in Twerton or our Somer Valley Campus in Radstock. Courses are around 3-4 hours per week and you will be working within small groups of people who are all at the same level as you.

Most courses begin in either February or September, but there will be other classes that you can join throughout the year.

Before you can enrol you will need to take a pre-course assessment to make sure you are placed onto the correct course to suit your needs and level. These assessments are run by our tutors and you will have the chance to ask any questions you might have as well as finding out which of our courses will be most suitable for you.

To find out more, call the ACL team on 01225 328822.
